CHICAGO GRAIN MARKET.

CHICAGO, August 17.- [Special Telegram to the Berej-The bulge which started in late vesteriay afternoon continued this morning, everything on the list opening higher. But the remark was heard very frequently after trading had begun to the effect that the market had been opened too high to stick. September wheat opened at 78%c, lgc in advance of yesterday's closing, sold at 78%c, and then fell back to 78%c. Corn for September started out at 49%c, only fluctuating between that and 40%c. Pork was first quoted at \$3.72½ for September. The receipts were considered fight. They aggregated 176 cars of wheat, (122 winter and 51 spring), 606 cars of corn, and 276 cars of oats. Cables were a decidedly strengthening feature, coming in strong and 1d higher on wheat and 14d higher on corn. Before the first hour the market went up two or three points on the announcement that the warehouse folks had made an error in figuring in 450,000 bushels more wheat than they actually had, thus making the visible supply increase 1,300,000 bushes Instead of 1,748,000 bushels. As it was known on the floor some time before the announcement was officially made, the effect at the moment did not amount to much. During the early part of the day Linn and Schwartz were heavy wheat buyers, said to be for the account of Leopold Bloom. The bull support was not sufficient to hold up the market, and prices gradually reacted to 78%e by 10 o'clock to 78%e by 10:30 o clock.

Much of the corn bought in a small way yesterday morning was sold to-day, breaking the market. Sep-tember declined in the first hour from 41%c to 43%c, while September pork fell in the same time to \$9.65. Lesseynsky's advices are that the French crops have been damaged fully 20 per cent, and his New York house expects before many weeks a good export trade here at \$1 for eash wheat. The

premium is now 36c over September.
"The feature of to-day's markets," represented Jackson Bros., "was the evening-up process indulged in. There was a world olong wheat sold and short wheat bought."

Bloom's purchases, it was learned, were about all short wheat. He covered through Linn & Staffer.

Before noon September wheat had reacted to 7814c, remained there a moment, then became a little firmer, and went back again to 7814c recovering by ment to 7814c and half and the armer, and went cack again to 38%c, recovering by noon to 78%c, and half an hour later touching 78%c. Corn in the meantime was very steady around 43%c, at which offerings were light and quickly absorbed. Corn sold at 43%c, but around noon the market became firmer on local demand and sold up again to 43%c. Reports on New York. York exports were very conflicting as to what had been or would be done, but conservatives agreed that fifteen boat-loads taken would be about right. "If we get more than this," said a member interested in this branch of trade, "it will give us a good bull market to-morrow, as providing a good bull market to-morrow, as providing that shippers must have wheat and are will-ing to pay these prices for it."
The provision list was a dull deal and closed substantially the same as it did yesterday. September pork opened at \$9.72\frac{1}{2}\infty mainly on the high run of hogs, and sold down to \$9.65, recovering slightly. All the list was inclined to strengthen early, but it did not hold. September wheat dropped down to \$77\frac{1}{2}\infty, only closing a split better than that. The biggest shipment ever arranged for was contracted for to-day by the Plankinton-Cudahy Milwaukee clique which is running the September lard deal. Room is engaged for 500,000 tlerces of lard in one contract. This is \$1,500,000 worth of property. If it went by rail it would take 800 freight cars loaded from the top. It is a contract by which

bottom to top. It is a contract by which nearly one-half of all the lard in store here moves out. It will go by propellers, and all the propeller lines participate. CURB, 2:30 p. m.—September wheat, 78%c; puts, 77%c; calls, 78%c78%c. September corn, 43%c64c; puts, 43%c; calls, 44%c.

STOCKS—Prices at the opening of the stock market this morning were generally lower, although the differences were from ½ to ½ per cent only with the exception of Omaha. Which was off ¾ and New York Central ½ per cent. There was quiet trading in the morning hours, during which the market, although exhibiting a weak undertone, did not yield to any considerable extent. After noon, however, Union Pacitic was broken over 1 per cent, and other active stocks fractional amounts. A slight recovery followed tional amounts. A slight recovery followed on comparatively dull trading, but after 2 o'clock the attack was renewed with double force and the entire list yielded in unison until just before the close, when the pressure was removed. The market closed quiet but weak at about the lowest figures reached.
